Below is the answer I got

Roberto,

We are almost done with the final report. Once you have taken custody, I see no reason why the draft water mark can't be removed. In regards to the existing reports, if the Region is ok with the reports, they can be made final likewise.

Attached are all the reports generated during the incident. They have a "draft" watermark but are considered final. The results included in those are monitoring readings and are also considered final. As the Aspect team indicated, there will be a final-final report but they are still working on it. I'll let you know.

Thxs, Roberto.

Roberto, did you get any word from the ASPECT folks?

Craig, let me do some digging around since what I have are the same draft reports generated during the event. I don't know if the ASPECT group does eventually generate final reports from those drafts. Hope that you're doing good too. I'm getting swamped with many FOIA requests about the incident and about to deploy to Puerto Rico to support that response.

Roberto.

Subject: Arkema Aspect Flights

Hi Roberto,

Hope things are going good over in your shop. I am looking for the final copies of the ASPECT Flights from the Arkema event. All of the copies I currently have are the preliminary results. Can you send those over to me?

Thanks,

Craig Hill
